## LIKE TIMBER, BUT BETTER

### Upgrade Your Space with Paveezzi's Range of Composite Decking

Paveezzi focuses on providing outdoor solutions that delight with their authenticity and offer peace of mind with their performance. Comprised of a unique blend of recycled plastic and timber, Paveezzi's decking boards are expertly engineered with longevity and low-maintenance in mind, while the product's contemporary aesthetics are certain to upgrade your outdoor space.

Our composite decking provides an innovative alternative to timber that is engineered to better withstand the elements and ultimately provide outdoor spaces with longer-life, more sustainable solutions. While no one can doubt the merits of timber decking, the material is often plagued by the effects of weathering and with hours of maintenance, the material's looks, strength and overall functionality diminishes.

Explore why we believe that in our range of Paveezzi composite decking, a better alternative exists...

## PACKED FULL OF FEATURES

### VERY LOW MAINTENANCE

All boards are hard wearing and easy to maintain

### NO ROTTING OR WARPING

A unique material composition resistant to the damaging effects of moisture build-up

### NO TREATMENT REQUIRED

No need to paint, oil, stain or seal the deck boards

### 25 YEAR RESIDENTIAL WARRANTY

High-quality long lasting products with a 25 year warranty

### 10 YEAR COMMERCIAL WARRANTY

A solid 10 year commitment of durable decking for commercial applications

### NO SPLINTERING

The material composition ensures long-term safety and assurance

### ECO-FRIENDLY

A long-lasting material composed of a blend of recycled plastic and wood fibres

### STRENGTH AND DURABILITY

Our boards retain their strength and durability throughout their lifetime

### SLIP RESISTANT

A decking product with a higher slip resistance than timber

## COMPARE OUR RANGES

We understand that outdoor spaces can be diverse and decking projects can come in all different shapes and sizes. To provide solutions that best fit your requirements, we have specialised in 3 collections of composite decking (capped products), designed to suit budgets of all sizes and an array of different applications.

### OUR CAPPED BOARDS

Wrapped in a protective shell, our 360 capped composite decking ranges provide you with all the benefits of our traditional composite decking and more. The board's protective polymer sleeve is designed to offer outstanding resistance to staining and fading, while the board's blend of two-toned colouration provides bundles of character. It's these key features that make our capped decking the premium choice for any project.

## PAVEEZZI RESISTO 143 DECKING, THE HOMEOWNER'S CHOICE

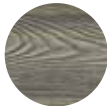

At last, a lightweight, hollow composite decking product with the quality that our customers have come to expect. We set out to develop a hollow composite board which retains its structural integrity, durability and authentic looks – and we believe that in the RESSISTO 143 brushed board, we did just that. Explore why Paveezzi's RESSISTO 143 decking is a product that offers more value than most.

- Dimensions: 143mm x 23mm x 5400mm
- Traditional composite material
- A full range of compatible accessories

## FEATURES AND BENEFITS

### Hollow Tube Design

Equipped with a hollow tube design, this board promises a lightweight composition without compromise on strength.

### Embossed Woodgrain

A deep, textured woodgrain designed to offer the board with unrivalled authenticity.

### Slip Resistance

A unique material finish and deep texture provides our Essential board with excellent long-term slip resistance.

## PAVEZZI RESSISTO 138 EXTRA MATT DECKING, SOLID TO THE CORE

A solid, dense composition – our RESSISTO 138 Extra Matt range is engineered to tackle the stresses and strains of even the most demanding of outdoor environments.

This gives users the security that Pavezzi composite decking will handle the weight of high footfall and heavy furniture, while not compromising on aesthetics.

- Dimensions: 138mm x 23mm x 5400mm
- Traditional composite material
- A full range of compatible accessories

## FEATURES AND BENEFITS

### Enhanced Strength

A bold, densely packed material composition makes the RESSISTO 138 deck board the strongest in the Pavezzi range.

### Assurance of Slip Resistance

A slip-resistant outdoor flooring solution, come rain or shine, giving you reassurance in even the most demanding of environments. Rated P5

### Embossed Woodgrain

Etched into the surface of the product, the woodgrain finish of the RESSISTO 138 board offers exceptional authenticity

## PAVEZZI RIVIERA PREMIUM DECKING, A WEATHER RESISTANT UPGRADE

Enclosed in a four-sided, protective capping, the RIVIERA 190 PREMIUM range provides users with the guarantee of superior resistance to the hazards that come with everyday outdoor life – no matter the season. An affordable, lightweight capped composite decking has arrived and it's guaranteed to look right at home in your garden.

- Dimensions: 190mm x 23mm x 3600mm
- Capped composite material
- A full range of compatible accessories

Maple

Ebony

White Beach

Charcoal

Siberian Ash

Teak

## FEATURES AND BENEFITS

### Enhanced Protection

The tough, weather-resistant capping of the PREMIUM board offers resilience to both fading and staining.

### Distinct Aesthetics

A premium, dual-tone finish and colour variance between boards provides a strikingly modern take on a traditional deck.

### Hollow Tube Design

No real compromise is made on strength as the Rssisto & Riviera boards has a hollow tube design with only 30% of material removed from its core

## FEATURES AND BENEFITS

### Enhanced Protection

The outer capping on this range offers a protective barrier to the board's core - shielding it from the effects of fading and staining.

### Dual-Tone Authenticity

A two-tone colour variation and an authentic finish provides the all PAVEEZZI decking range with an unrivalled, contemporary appeal.

### Hard-Wearing Core

A hollow core consisting of tightly packed wood fibres and recycled plastic, the PAVEEZZI decking range provides you with reassurance, no matter the environment.

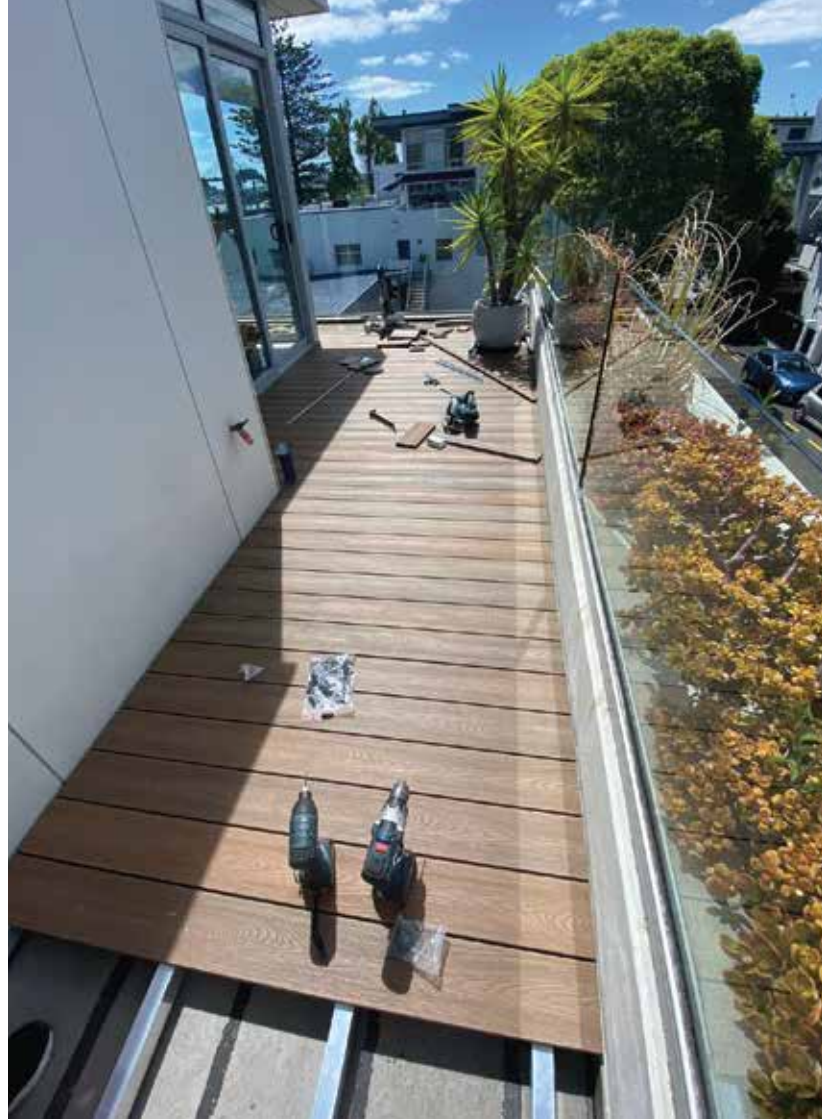

## PAVEZZI ACCESSORIES

---

In addition to our boards, we also offer a wide range of composite decking accessories designed to supplement your project perfectly.

Make installation a doddle with our hidden fixings; opt for a long-lasting subframe solution with our purpose-built joists; and add the finishing touches to your deck with our edge boards, fascia board and corner trims.

## EDGING OPTIONS

---

Bring your project together and add those finishing touches with our neat and tidy composite decking edging solutions. Choose from PAVEEZZI's selection of composite decking edge trims to achieve an excellent finish to your decking area.

### END CAPPING

Our end caps provide the perfect solution to cover hollow decking exposed areas. These are coming in all matching colors, just like the deck boards.

### STAIR NOSING / L-TRIM

Our L-trim provides a perfect solution for covering the exposed corners of steps and offering a framing option. These are coming in 5.4m lengths, just like the deck boards.

### BULLNOSE / FASCIA BOARD

Our edge boards are purpose built to seamlessly finish the perimeter of your project. These are coming in 5.4m lengths, just like the deck boards.

## SUBFRAME SOLUTIONS

A composite decking subframe should provide a reliable and structurally sound framework that works hand-in-hand with your PAVEEZZI deck boards. Long life and low-maintenance – our recycled plastic lumber posts, pedestal system and aluminium joist frame solutions are eco-friendly alternatives to timber, designed to offer our customers with ultimate reassurance.

### ALUMINIUM JOIST

A hard wearing joist made from the Aluminium material are used to construct a complimentary subframe for low-lying projects with solid bases.

### ADJUSTABLE PEDESTALS

RHINO by PAVEEZZI set of adjustable pedestals are designed to support and elevate a decking subframe without the use of posts. RHINO by PAVEEZZI range of pedestals are excellent for flat, solid surfaces such as concrete and roof terrace installs. Coming in the range from 20mm / 1450mm

### PLASTIC LUMBER

Paveezzi's range of plastic lumber is a selection of robust solutions, consisting of a small plastic joist, a large plastic joist and a plastic post system. These products can be used in a number of different installation settings including those on soft or uneven ground.

# PAVEEZZI FIXINGS & FASTENERS

Paveezzi's range of composite decking fasteners and colour-coded screws are designed to discreetly and securely fix our composite decking products. Solutions that are purpose-built to work hand-in-hand with our boards, our composite decking fixing clips and screws are weatherresistant, hard-wearing solutions that offer you ultimate peace of mind.

## STARTER CLIP

Designed to slot directly into the opening of your first run of boards, this starter clip system is both easy-to-use and discreet. Each pack contains 100 clips and associated screws.

## FAST CLIPS

### 3mm Metal FastClip:

A long-lasting and hardy stainless-steel clip system. Each pack contains 100 clips and screws.

### 56mm Plastic FastClip:

Our plastic FastClip is a purpose-built solution that allows a 6mm gap between boards. Each pack contains 100 clips and screws.

## COLOUR-CODED SCREWS

Assisting you with installation, Paveezzi's range of decking and trim screws are both discreet and easy-to-use. Each pack contains 25 screws.

## DON'T JUST TAKE OUR WORD FOR IT. .

"The customer service was outstanding and they were always happy to help! We chose the PAVEEZZI RESSISTO 143 decking as we saw this product as instantly meeting our requirements. The RESSISTO board was an authentic option which comes without all those hours of sanding and varnishing. **Paul & Mark**

"I had done extensive research on composite decks from cheaper wood to the very expensive. There is a vast difference in quality. I found PAVEEZZI sat well on the higher quality side. I had a very big deck to build so was also price conscious. PAVEEZZI estimating took their time to look at my drawings and measurements and were able to give me a very accurate calculation and quote. I'm over the moon with the finished look. From beginning to end Paveezzi has been professional and helpful."

**Jonathon Fox from Fox Management**

"Really good company and fantastic product which I would recommend without hesitation. The sales team were professional and attentive, offering advice and interpreting our needs. We chose RIVIERA Siberian Ash in 190 width and the finished job looks fantastic. After winter we wiped the decking down without any issues."

**Lisa Larkin Designe**

## THE PAVEEZZI STORY

---

Paveezzi is a family-run business born from the belief that superior product quality does not need to come with a premium price tag.

The business has flourished from this commitment that originated in its former years, when supplying Australian based builders merchants with unbranded composite decking solutions. Six years and 1000's of deck boards later a composite decking brand was born that strived to do what others had failed to: *provide genuine value in the form of great quality composite decking boards, for a reasonable price.*

Today, our composite decking company is made up of a dedicated team of problem solvers who are passionate about providing you with the best suited products for your requirements.
